

Prairie Cardiovascular

The Doctors of Prairie

John B. Gill, M.D.

**Coronary Intervention, Peripheral Vascular Intervention
and Nuclear Cardiology**

"The challenge of cardiology is integrating the patient's medical history with clinical findings to develop the best treatment plan. The greatest satisfaction comes from delivering this care with honesty and empathy to return a happier, healthier patient to his or her family. The reward is when the patient returns for a visit just to say "hi".
